

Provides...

Information and support for families who have a premature infant, a child with a disability, emotional or behavioral challenge, chronic illness, or a family who is grieving the death of their child.

Matches...

Families one-to-one with trained, volunteer Support Parents who have a child with special needs. These volunteer families provide emotional support and share expertise from their own experiences.

Supports...

Professionals working with families who care for children with special needs.

Sponsors...

Workshops, trainings, and support groups.

Promotes...

Collaboration among parents, families, and service providers.
